MUNI VIJAY KUMAR

DEVOTION

I dedicate this book,
“PERSONALITY IN RHYTHM”

To His Holiness Guruvar,
For receiving from him,
In my life,
More and more spiritual power.

PREFACE OF THIRD EDITION

This is the third edition of my book “Personality in Rhythm”. This was my first attempt of composing poems in English and most of the poems were written for my practice. However, when this book was printed, I never thought that so much appreciation would be received for these poems. Indeed, encouraging words spoken by various persons have given me immense self satisfaction for this creation. I humbly accept this as blessing of my holiness Guru.

I believe that this book of poems would guide young children good ethics, moral values and provide them basic knowledge for laying the foundation stone to develop their bright and shining future.

MUNI VIJAY KUMAR

FORWARD

Poetry is the most impressive and effective form of literature. The thoughts, feeling and imaginations are the core of any poetic creation. Poetry is not only a blend of words, phrases and dictions, but it should reflect the thoughts, feelings and imaginations of the poet. Mathew Arnold defines poetry, "Poetry is the criticism of life." If a poem does not communicate the feelings and thoughts in the heart of the reader, it will never be a good poetry.

Modern age is much influenced by the modern means of communication. The effect of cinema and T.V. can easily be seen on the minds of young generation. They are readily led away by the nudity and vulgarity of electronic media. Under these circumstances, the need and importance of good and impressive child-literature is the need of the hour. Thousands of magazines and books are written and published every day for grow up people but very few writers and poets are taking interest in composing child-literature.

The efforts of Muni Vijay Kumarji in the composition of poems for children is praise worthy and laudable. Muni Vijay Kumarji is not only a great writer and poet but also a great thinker. He has written a number of books depicting the human life and moral values. He has a keen eye and observes the deteriorating ethical and moral values in human life. The duty of a poet is not only to give vent to the infinite values of life but also to express the feelings and sensibilities of his age. I think Muni Vijay Kumarji has aptly done justice and taken pains in composition of his poems. Although it is his maiden endeavor to compose English poems for children, they are of high standard. The poet in his poems has observed the artistic qualities of poetry. His poems are full of rhymes, rhythms, thoughts, feelings and emotions. His poems are based on morals and they will be very useful for parents to guide their children. These poems are written purposely for children by Muni Vijay Kumarji. I wish and hope that Muni Vijay Kumarji will continue his efforts for producing more and more such literary works for children. The society will be indebted to him for his immortal work.

PREFACE

I have been taking deep interest in composing religious songs and poetry since very long. I have composed all my songs and poetry in Hindi, Rajasthani and Sanskrit languages. It is a matter of my own satisfaction. I have been receiving the blessings of my Holiness Gurudev and good wishes of many persons.

This is my first opportunity of composing poems in English. In worldly life, my English practice was excellent. After initiation, I was engaged in the study of Sectorial Curriculum which did halt my practice of English. After a long time, I started studying English again. Although there was no regularity in my study, I practised English from time to time.

During Chaturmas period with Muni Shri Sumermalji (Ladnun), I firmly made up my mind for the practice of English language. After arriving in the mega-city of Mumbai, I realized that children from even Rajasthani background could neither read in Hindi and Rajasthani languages, nor could even speak in these languages. At many places I had to talk in English with them.

Once Shri Bajrangji Jain suggested, “Munishri, you have composed so many poems in Hindi and Rajasthani languages along with articles, you should now composed poetry in English.” I was highly inspired by his words. As a matter of practice, I started composing poetry in English. Gradually it took the form of a booklet. Later it was assessed by Sahitya Samiti and was approved.

Blessings of our most reverent Acharya Shri Mahapragyaji are precious gifts for me. I feel very much obliged to receive the well wishes of Honourable Yuvacharya Shri Mahashramanji for this book. The auspicious presence of Muni Shri Sumermalji is like a boon to me. I am highly thankful to Shri R. D. Singh (the Principal of Hindi High School, Ghatkopar) who thoroughly reviewed these poems and also devoted his precious time for rectifying them wherever necessary.

Besides these poems, symbolic pictures are also added in this book “Personality in Rhythm”, so that it becomes useful for children. My good wishes for all are placed in this efforts.
